

## **Frequently Asked Questions About the Board of Examiners and the State Association**

### **What is the difference between the Board of Chiropractic Examiners and the state association?**

The Board of Chiropractic Examiners is a legislatively mandated state regulatory agency charged with the responsibilities of examining, licensing, registering, and regulating the practice of chiropractic, chiropractic assistants, radiological technologists, and claims reviewers. The main function of the Board of Examiners is to ensure the competency through examination and licensure and ethics through registration and regulation of all chiropractic professionals in the state of Mississippi. The ultimate goal of the Board of Examiners is safeguarding and enhancing the health and welfare of the citizens of the state of Mississippi. As such, the Mississippi State Board of Chiropractic Examiners is *neither* affiliated with nor functions as a subsidiary of any professional or private organization, such as a state association.
